

## News Release

For Immediate Release January 2012

### **FreedomPACS to Exhibit at 2012 Medical Association of Alabama (MASA) Technology Symposium, Feb. 10-11**

*PACS System Provider Offers Affordable Radiology Imaging Solution to Physician, Radiology Groups*

SOUTHFIELD, MICH. — Radiology PACS System provider **FreedomPACS™** announced that it will be attending and exhibiting at the 2012 [MASA Technology Symposium \(The Medical Association of Alabama\)](#) on February 10-11 at the Embassy Suites Hotel Birmingham–Hoover in Birmingham, AL. The MASA Technology Symposium will be attended by more than a hundred medical professionals involved with implementing technology solutions to improve patient care.

FreedomPACS invites all attendees to visit their booth at the symposium to learn more about how a PACS system can help their business to become more efficient by improving workflow. In addition, FreedomPACS also offers cloud off-site archiving and storage so medical facilities can be HIPPA-compliant and safeguard their data in case of a natural disaster.

By visiting the FreedomPACS booth at the MASA tech symposium, attendees will:

- Learn how FreedomPACS web-based PACS system can **save time** with instant access to patient studies
- View demos—try out FreedomPACS user-friendly **diagnostic DICOM web-based viewer**
- Find out how to **save money**: avoid expensive equipment and maintenance costs
- Discover how **affordable and effective** this PACS system is your business

To set up an appointment, [visit our form online](#) or call 855-740-1130.

#### **About FreedomPACS™**

FreedomPACS (<http://www.freedompacs.net>) is a cost-effective medical Picture Archiving and Communication System (PACS) that provides convenient, economical access and archiving of images from multiple modalities (like CT or MRI) using cloud technology. This radiology PACS system is HIPPA-compliant, incorporates DICOM standards and can be accessed on PC or MAC as well as mobile platforms like iPad and Android. FreedomPACS is owned by MN Systems, headquartered in Southfield, MI, a joint venture between a medical software development company and a group of practicing physicians. MN Systems brings technology and medical expertise to its customers, combining software development knowledge and physician experience to provide affordable, efficient, and leading-edge medical software solutions to ultimately improve patient care.
