

## **News Release**

*For Immediate Release April 12, 2012*

### **Radiology PACS System FreedomPACS Participates in Sold-Out Exhibition at NRHA Annual Rural Health Conference in Denver**

*Radiology PACS provider offers affordable medical imaging solution to rural health professionals;  
National Rural Health Association conference visitors can register to win a free Visa gift card*

SOUTHFIELD, MICH. — Radiology PACS System FreedomPACS is exhibiting at the nation's largest rural health conference, the 2012 NRHA's Annual Rural Health Conference on April 17-20. The web-based radiology imaging PACS joins a host of medical professionals working toward improving rural health care.

FreedomPACS invites NRHA conference attendees to visit them at Booth 414 to learn more about the benefits of web-based digital radiology imaging and how to save money on this vital service. The Annual Rural Health Conference exhibition is sold out and is expected to be attended by rural health practitioners, hospital administrators, clinic directors and lay health workers, social workers, state and federal health employees, academics, community members and more.

When attendees visit the FreedomPACS booth, they will be registered to win a free \$50 Visa gift card. Medical professionals can learn how to implement an affordable [web-based PACS](#) to make rural health practices or hospitals more effective and efficient. FreedomPACS can offer and integrate Dragon Medical Practice Transcription Software into FreedomPACS.

Attendees can:

- Participate in a demo to experience our web-based DICOM viewer firsthand
- See how our search and worklist capabilities work to increase your productivity (on desktops, iPads, or Android devices)
- Experience our HIPAA-compliant off-site cloud storage and interaction with other PACS or medical systems (HIS, EMR, RIS)

**About FreedomPACS™**

FreedomPACS (<http://www.freedompacs.net>) is a cost-effective medical Picture Archiving and Communication System (PACS) that provides convenient, economical access and archiving of images from multiple modalities (like CT or MRI) using cloud technology. This radiology PACS system is HIPPA-compliant, incorporates DICOM standards and can be accessed on PC or MAC as well as mobile platforms like iPad and Android. FreedomPACS is owned by MN Systems, headquartered in Southfield, MI, a joint venture between a medical software development company and a group of practicing physicians. MN Systems brings technology and medical expertise to its customers, combining software development knowledge and physician experience to provide affordable, efficient, and leading-edge medical software solutions to ultimately improve patient care.
