### On-Site PACS and Cloud Storage Help County Hospital Save 75 Percent

*Case Study Profiles How Winkler County Memorial Hospital Improved Patient Care, Increased Efficiency*

SOUTHFIELD, MICH. — Radiology PACS System and Cloud Storage provider **FreedomPACS™** recently released a new case study on how **Winkler County Memorial Hospital (WCMH)** is improving patient care and gaining significant savings with on-site radiology Picture Archiving and Communication System (PACS) and cloud off-site image storage.

Each year, more than 4,500 people rush to WCMH for emergency medical help. The case study tells the story of how the 19-bed hospital in Winkler, Texas, has solved reliability issues with its previous PACS and saved time with FreedomPACS Server edition and cross-platform diagnostic viewer. In addition, the hospital has saved 75 percent in medical image storage through **FreedomPACS Cloud**. Winkler County Memorial Hospital is a member of the Texas Organization of Rural & Community Hospitals (TORCH).

Now WCMH physicians and medical staff are easily accessing and sharing X-ray, CT, and ultrasound images for timely radiology results and diagnosis.

To learn how FreedomPACS web-based radiology PACS can help your medical practice gain instant access to patient studies, ultimately saving time and money, [visit our form online](#) or call 855-740-1130.

#### About FreedomPACS™ & FreedomPACS Cloud

**FreedomPACS** (<http://www.freedompacs.net>) is a cost-effective medical Picture Archiving and Communication System (PACS) that provides convenient, economical access and archiving of images from multiple modalities using cloud technology. This radiology PACS system incorporates DICOM standards and can be accessed on Windows or Mac as well as mobile platforms like iPad and Android.

**FreedomPACS Cloud** offers secure, HIPAA-compliant off-site storage for radiology images. Available with or without a PACS system, this affordably priced solution harnesses the protection and efficiency of the cloud. It provides instant access and can integrate with other medical, equipment or PACS systems. FreedomPACS is owned by MN Systems, headquartered in Southfield, MI, a joint venture between a medical software development company and a group of practicing physicians.
