

## News Release

For Immediate Release: April 12, 2013

### **FreedomPACS Showcases Radiology Imaging Solutions to Rural Healthcare at Annual TORCH Conference, April 17-19**

*Radiology PACS provider offers product demos and donates to TORCH Foundation silent auction*

SOUTHFIELD, MICH. — Web-based PACS and cloud storage provider [FreedomPACS™](#) is exhibiting at the [Texas Organization of Rural & Community Hospitals \(TORCH\) Annual Conference and Trade Show](#), April 17-19 in Dallas. Held at the Omni Hotel, the event is one of the largest gatherings of rural hospitals and medical professionals nationwide.

Each year, the TORCH gathering brings over 600 medical providers and exhibitors together to address the specific needs and issues facing rural healthcare such as legal advocacy, technology, patient services and access to quality care. FreedomPACS is a corporate member of TORCH, with a goal to better serve the rural medical industry with cost-effective medical imaging solutions.

For example, FreedomPACS recently helped fellow TORCH Member Winkler County Memorial Hospital of Kermit, Texas, improve workflow, enhance patient care and save 75% on their cloud radiology image storage costs. [Read the complete case study here.](#)

TORCH members are invited to network with FreedomPACS at **Booth #95** to:

- Learn about the security and efficiency of its HIPAA-compliant cloud storage.
- See a demo of the diagnostic web-based DICOM viewer.
- Discover how the web-based PACS system helps rural physicians, clinics and hospitals save both time and money with instant access to patient studies and radiology images.

Conference attendees also have the chance to bid on a FreedomPACS-donated [EIZO RadiForce MX240W color monitor during the silent auction on April 18](#). FreedomPACS contributed this high-quality radiology LCD monitor (valued at \$1,800) to the auction, with all proceeds benefitting the TORCH Foundation Scholarship Fund.

For additional information or to schedule an appointment, [fill out the online form](#) or call 855-740-1130.

#### **About FreedomPACS™ & FreedomPACS Cloud**

**FreedomPACS** (<http://www.freedompacs.net>) is a cost-effective medical picture archiving and communication system (PACS) that provides convenient, economical access and archiving of images from multiple modalities using cloud technology. This radiology system incorporates DICOM standards and can be accessed on Windows or Mac as well as mobile platforms like iPad and Android.

**FreedomPACS Cloud** offers secure, HIPAA-compliant off-site storage for radiology images. Available with or without a PACS system, this affordably priced solution harnesses the protection and efficiency of the cloud. It provides instant access and can integrate with other PACS or medical equipment. FreedomPACS is owned by MN Systems, headquartered in Southfield, Mich., a joint venture between a medical software development company and a group of practicing physicians.
